Closing the Opportunity Gap

Part of the headline of the New York Times article stated ‘Talent is universal, but opportunity is not’. The story focuses on a homeless refugee family from Nigeria whose 8 year old son, Tani, became the New York state chess champion after just one year of practicing chess through a club at his New York City public school. His Dad has been working two jobs, one of which is renting a car so that he can drive for Uber. The piece ends with the Dad saying, “The U.S. is a dream country.”

So what does this have to do with Branches? Our mission at Branches is based on the premise that every person deserves an opportunity. One well-placed opportunity for most anyone can turn a dream into reality.

Take the journey of young Martine Marcelin when she was a student at Coral Reef Senior High School. One day after class she shared with her English teacher that she was struggling in math. He offered to tutor her at 6:30 a.m. a few days each week. She readily accepted and by the end of that semester, she had aced her math class. She went on to earn a full scholarship at Florida Southern College. Years later, Martine Marcelin is now the program manager for Branches’ Climb to College & Career program.

One of the very important opportunities we provide Branches’ students is professional SAT/ACT test prep. We hired a local test prep company called First Class Test Prep. It is owned and operated by Martine’s former English teacher. Together we are providing weekly test prep sessions for high school juniors and seniors.

In providing this opportunity, we have learned that Branches’ students often need to take the test more than once in order to be successful. In fact, a second, third and even fourth time taking the SAT exam may result in such improvement that a student is able to receive $10,000 and even more in additional scholarships. Branches students who have taken the SAT at least 2x have increased their scores by an average of 23%.

Speaking of opportunities, we are still recruiting mentors for our Branches’ youth! By giving of yourself, you too can help create a life-changing opportunity for our youth. And one day they too will say this truly is a ‘dream country’.

With Hope and Gratitude,

Brent McLaughlin
Executive Director

Mentoring our Youth

Thanks to the proper guidance from the Branches Climb to College & Career program, all of Branches 17 High School seniors will be attending college this Fall. That brings Branches total current college student count to 42, and almost every single student is First Generation! Branches is incredibly proud of our youth and their accomplishments. We know how hard they have worked on their post-secondary goals and dreams.

In addition, we are incredibly grateful to our Branches volunteer mentors who help guide our youth to stay on the right path towards success. However, we need more mentors! Therefore, we held our first Mentoring Matters Happy Hour on Thursday, March 7th at Capital One Café. Guests enjoyed appetizers and wine and Branches shared a bit more about the mentoring program. If you or someone you know would like to become a mentor, please contact us at 305-442-8306 x2012 or email us at mmarcelin@branchesfl.org. THANK YOU!

Surviving the Government Shutdown

During the longest Government Shutdown in U.S. history, lasting from December 22, 2018 - January 25, 2019, Branches was extremely busy serving hundreds of federal workers in Miami who had been affected by the loss of income. Branches’ Financial Wellness team served at Miami International Airport, providing information about critical financial resources available to TSA employees. Branches also served alongside Feeding South Florida at their distributions and provided resources and information about assistance for government employees.

The Branches team specifically helped individuals with financial coaching, free tax prep, helping navigate late mortgage payments to banks, utility companies etc. With the support of United Way of Miami-Dade, Branches was also able to provide rental and utility payment assistance for those most in need. Branches also tried to assist affected workers with transportation and childcare costs which is often an area of need not covered by many programs. Even though the Shutdown ended with most workers receiving back pay, 78% of U.S. workers live pay check to pay check, making this shutdown extremely difficult and stressful for many employees and their families. If you know someone that needs to schedule a Financial Wellness Check-Up, contact us at 305-688-3551 x2008 or Financialwellness@branchesfl.org

THANK YOU to all our generous donors for supporting Branches’ programs!
