SAVING MONEY

BROUGHT TO YOU BY

Branches
Grow Deeper, Climb Higher

Reasons to
SAVE MONEY

People save money to
make large purchases

People save money to
build the future they want

People save money to
prepare for emergencies

Where to save
YOUR MONEY

Let's look at two places
where people save their money:

**Piggy
Banks**

**Savings
Accounts**

PIGGY BANKS

- Located in your room
- You don't need help to start using one
- Easy to access/
easy to spend
- Not safe from siblings

SAVINGS ACCOUNTS

- Located at a credit union
- You need a parent to help you open one
- Harder to access/
harder to spend
- Safer than a piggy bank
- Pays you **interest**

The image features four coins with dollar signs on their faces. One is gold and three are silver. They are arranged in a scattered pattern around the central text. The gold coin is positioned above the text, while the silver coins are located at the top, right, and bottom-left corners of the text area.

**Interest is the money a bank or credit union
pays you for keeping your money
in a savings account**

How to save
YOUR MONEY

IDEA #1

When you earn or receive money,
put half of it in a savings account
and the other half in a piggy bank

IDEA #2

Set a savings goal—draw or cut out a picture of what you are saving for and keep it where you will see it every day

SAVINGS GOALS

Remind you of
what's important

Make it easier to
choose saving
instead of spending

Give you something
to look forward to

Saving money is a skill.
The more you practice, the better you get.

ASK YOURSELF:

**What is something
you want to save money for?**

How can you practice saving money?
